

Step 1: Go to takout.google.com, type in your email/phone number and password and click on "Next."

The screenshot shows the Google Sign-in interface. On the left, the Google logo is above the text "Sign in" and a paragraph: "with your Google Account to continue to Gmail. This account will be available to other Google apps in the browser." In the center, there is a text input field labeled "Email or phone". Below this field is a link "Forgot email?". Further down, there is a line of text: "Not your computer? Use Guest mode to sign in privately. [Learn more about using Guest mode](#)". At the bottom right of the sign-in area, there are two buttons: "Create account" and "Next". Two large red arrows are overlaid on the image: one points to the "Email or phone" input field, and the other points to the "Next" button. At the bottom of the page, there is a language selector "English (United States)" with a dropdown arrow, and links for "Help", "Privacy", and "Terms".

Step 2: Under "Create a new Export", click on "Deselect all" and make sure all ticks are gone.
